

Fucithalmic®

fusidic acid eye drops

Patient instructions

1. Open the eye, tilt the head backwards and look up towards the ceiling.
2. Gently pull down the lower eyelid to form a 'pouch'.
3. Hold the tube near the eye, but do not let the tip of the tube touch the eyelids or lashes.
4. Squeeze one drop of Fucithalmic® into the 'pouch'.
5. Repeat for the other eye.
6. Close both eyes briefly.
7. Do not rub the eyes and for a short time try not to blink.

Dosage – one drop of Fucithalmic into each eye twice a day (at approximately 12 hour intervals), or as directed by your doctor.

- Keep using Fucithalmic for at least 48 hours after the eyes have returned to normal, or as directed by your doctor.

- Do not use contact lenses during treatment.
- Store at room temperature (below 25°C).
- Discard 30 days after opening.
